

DIARY NOTES

25X1A

DD/S

20 August 1957

1. Dr. Tietjen advises me that we have 1500 cc's (1500 dosages) of Asiatic flu serum and that he has started immunizing employees and dependents going to Europe----the area which seems to be next in line for the epidemic. We have been promised another 10,000 cc's on Friday, 23 August, and when we are sure just how much we are going to get a definite program for immunizing key personnel will be undertaken.

2. Asked Dr. Tietjen to get in touch with the chief doctor at the Civil Service Commission for an informal talk concerning some of our disability retirement cases which are coming up.

4. After discussing with [] and Matt Baird the possibility of assigning [] it has been agreed that we will not proceed to assign him as [] officer there. Matt will undertake to find a position for him in the Office of Training, however, and within a matter of a couple of weeks we will decide just what this position shall be. [] will not be available until February or March. 25X1A9a

5. [] was over to see me about his next assignment. He will soon complete two years of service in the Office of the Director as an "A" service designee. Although he would be very glad to return to the Office of Logistics he would also be happy to have a tour on the Inspector General's Staff. I told him that we would give some thought to this and try to come up with a plan for him in the near future.
